

From the Editor-in-Chief

We invite you to the Latest Publication section where our Faculty Members present their most recent papers, related directly to the issue of regional development and regional policy. In the current edition, we are publishing a monography by Anna Tobolska, Emilia Bogacka, Jan Hauke and Justyna Weltrowska entitled “Differentiation of social attitudes of students and academic teachers in Wielkopolska region during the COVID-19 pandemic”.

We hope that you will be actively involved in the creation of subsequent volumes of our journal, which is indexed, *inter alia*, in the ERIH PLUS database. We would also like to inform you that, according to the Notice of the Minister of Education and Science of 1 December 2021 on the list of scientific journals and reviewed materials from international conferences, the journal *Rozwój Regionalny i Polityka Regionalna*, issued by the Faculty of Human Geography and Planning of the Adam Mickiewicz University, currently has 70 points.

You are welcome to submit publication proposals, information on publishing novelties, reviews and polemical opinions about the latest research results, and also abstracts of outstanding master’s theses on regional development and regional policy, which could become the basis for the preparation of articles in the volume devoted to scientific debuts. We shall remember that the final shape of our journal, the current edition of which has just been sent, will depend on our joint activity.

All the guidelines on submitting and reviewing texts as well as the archive issues of the journal can be found on: <http://rr.amu.edu.pl> and <https://pressto.amu.edu.pl/index.php/rrpr/>.

Prof. Paweł Churski
